| Question                                                                                                                               | A                         | B                        | C             | D                             | A                     | B                     | C                     | D                     |
|----------------------------------------------------------------------------------------------------------------------------------------|---------------------------|--------------------------|---------------|-------------------------------|-----------------------|-----------------------|-----------------------|-----------------------|
| 1. The development is an orderly and _____ pattern of physical, motor, speech and intellectual changes.                                | Fast                      | Predictable              | Hidden        | Even                          | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 2. Learning comes from the _____ on the individual's part.                                                                             | Growth                    | Development              | Inheritance   | Practice                      | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 3. The inventory of behavior or skills that the observer marks if the individual demonstrate them is called:                           | Check list                | Rating scale             | Time sampling | Event sampling                | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 4. The in-born biological trait; the heredity information received from parents at the moment of conception is referred as:            | Nature                    | Nurture                  | Maturation    | Abilities                     | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 5. The researchers must strive for their research to improve the status, rights and well being of the participants. It is referred as: | Non-maleficence           | Beneficence              | Respect       | Protection                    | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 6. The _____ is one of the physiological adjustments that a new born must make for survival.                                           | Sleeping                  | Breathing                | Grasping      | Smiling                       | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 7. 'Ambidextrous' means:                                                                                                               | Preference for right hand | Preference for left hand | Disable       | No preference for either hand | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 8. The expression of fear to unfamiliar persons is called _____ anxiety.                                                               | Stranger                  | Separation               | Clutter       | General                       | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 9. The sturdy and muscular body build is called as:                                                                                    | Endomorphic               | Ectomorphic              | Mesomorphic   | Cephalocaudal                 | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 10. In _____ play, children play independently beside other children rather than with them.                                            | Solitary                  | Onlooker                 | Associative   | Parallel                      | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

## CHILD DEVELOPMENT HSSC-II

Time allowed: 2:15 Hours

Total Marks Sections B and C: 40

### SECTION – B (Marks 24)

Q. 2 Write brief answers any of SIX parts.

( 6 x 4 = 24 )

- (i) Briefly discuss the objectives of studying child development.
- (ii) In how many stages is the span of child development divided?
- (iii) What are rating scales? Enlist their advantages and disadvantages.
- (iv) How heredity and environment affect the development of a child?
- (v) How can physical hazards affect the prenatal development? Discuss briefly.
- (vi) How do infants learn to communicate? Name pre-speech forms of communication.
- (vii) Why is preschool age named as "problem age" by parent? Write briefly.
- (viii) What are the variations in play patterns during preschool years?

### SECTION – C (Marks 16)

Note: Attempt any TWO questions.

( 2 x 8 = 16 )

- Q. 3 Describe the postnatal care to be taken for better adjustment of the infant in detail.
- Q. 4 Why is play important for social development of the babies? Write in detail.
- Q. 5 What are the principles of growth and development? Explain.

|------------------------------------------------------------------------------------------------------|----------------------|-----------------|-------------------|-----------------|-----------------------|-----------------------|-----------------------|-----------------------|
| 1. Software that manages and controls the hardware is called:                                        | Application Software | System Software | Packaged Software | Custom Software | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 2. Two popular types of E-Commerce are Banking and:                                                  | E-mailing            | Shopping        | Chatting          | Messaging       | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 3. Which of the following display screen provides high quality image?                                | LCD                  | CRT             | VDU               | LED             | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 4. Which one is temporary memory?                                                                    | RAM                  | ROM             | USB               | PROM            | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 5. The transmission that allows data to move only in one direction is called:                        | Simplex              | Duplex          | Half Duplex       | Full Duplex     | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 6. A collection of webpages is called:                                                               | Weblink              | Internet        | Website           | Browser         | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 7. A _____ mode mixes the RGB values of a single color with the green, blue, and red channel values. | Subtract             | Exclusion       | Hard mix          | Difference      | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 8. What is used to insert text on the currently selected slide in Power Point?                       | WordArt              | Comment Box     | Text Box          | Ritch Text Box  | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 9. Which of the following is correct cell address?                                                   | AA                   | A5              | 5A                | 12              | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 10. A virus that replicates itself is called:                                                        | Worm                 | Bomb            | Bug               | Vaccine         | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

## COMPUTER STUDIES FOR HOME ECONOMICS HSSC-II (Pre-Home Economics Group)

Time allowed: 2:15 Hours

Total Marks Sections B and C: 40

### SECTION – B (Marks 24)

**Q. 2 Write brief answers of any SIX parts.**

( 6 x 4 = 24 )

- (i) Explain briefly bit, byte, word and MB.
- (ii) Name phases of SDLC.
- (iii) Explain briefly any four (04) types of data used in computer.
- (iv) Write down the use of computer in the following:
  - (a) Home Management      (b) E-commerce
- (v) Differentiate between the following:
  - (a) Website and Webpage      (b) Downloading and Uploading
- (vi) Write down uses of spreadsheet software in daily life.
- (vii) Write use of the following tools in Adobe Photoshop.
  - (a) Zoom tool      (b) Lasso tool      (c) Magic wand tool      (d) Brush tool
- (viii) Give importance of web designing software in field of Home Economics.

### SECTION – C (Marks 16)

**Note: Attempt any TWO questions.**

( 2 x 8 = 16 )

- Q. 3** What is data communication? Discuss components of data communication in details.
- Q. 4** Write down the purpose of presentation software. Also describe any six (06) important features of PowerPoint.
- Q. 5** Describe the following devices.
  - (a) Printer      (b) Keyboard      (c) Monitor

| Question                                                                                    | A                                    | B                                       | C                                          | D                                   | A                     | B                     | C                     | D                     |
|---------------------------------------------------------------------------------------------|--------------------------------------|-----------------------------------------|--------------------------------------------|-------------------------------------|-----------------------|-----------------------|-----------------------|-----------------------|
| 1. Who described economics as the science of material welfare:                              | Robbins                              | Marshall                                | Ricardo                                    | Keynes                              | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 2. When marginal utility reaches zero, total utility is:                                    | Maximized                            | Minimized                               | Falling                                    | Rising                              | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 3. The demand for goods with close substitutes tends to be:                                 | Less elastic                         | More elastic                            | Perfect elastic                            | Zero elastic                        | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 4. The supply curve shifts when:                                                            | Price falls                          | Price rises                             | Demand shifts                              | Technology changes                  | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 5. Which of the following is a producer good?                                               | Pen                                  | Cycle                                   | Mobile phone                               | Hammer                              | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 6. Under perfect competition demand for a factor is represented by:                         | MRP curve                            | ARP curve                               | TRP curve                                  | TR – TC                             | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 7. The marginal revenue of a monopolist firm:                                               | Is equal to price                    | Is greater than price                   | Is less than price                         | Is decreases with output            | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 8. $P=AR=MR$ , under the situation of:                                                      | Monopoly                             | Duopoly                                 | Perfect competition                        | Monopolistic competition            | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 9. In order to control money supply in a country, the Central Bank applies:                 | Fiscal policy                        | Commercial policy                       | Monetary policy                            | Agriculture policy                  | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 10. Which of the following should be avoided to promote the rate of investment in Pakistan? | Increasing savings                   | Protecting infant industries            | Providing bank loan                        | Increasing interest rate            | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 11. Taxes on commodities are called:                                                        | Progressive tax                      | Regressive tax                          | Indirect tax                               | Direct tax                          | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 12. What is deducted from Gross National Product to get Gross Domestic Product?             | Direct taxes                         | Subsidies                               | Indirect taxes                             | Foreign remittances                 | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 13. Which of the following input factors takes risk, innovates and co-ordinates?            | Capital                              | Entrepreneur                            | Productivity                               | Labor                               | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 14. Gross National Product (GNP) is always:                                                 | Less than Net National Product (NNP) | Greater than Net National Product (NNP) | Less than Disposable Personal Income (DPI) | Equal to Net National Product (NNP) | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 15. Land as used in economics:                                                              | Is a free gift of nature             | Is unlimited in quantity                | Is not hirable                             | Excludes oceans                     | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
